

# H<sub>2</sub>O

## HYDROGENATED ALKALINE WATER IONIZER

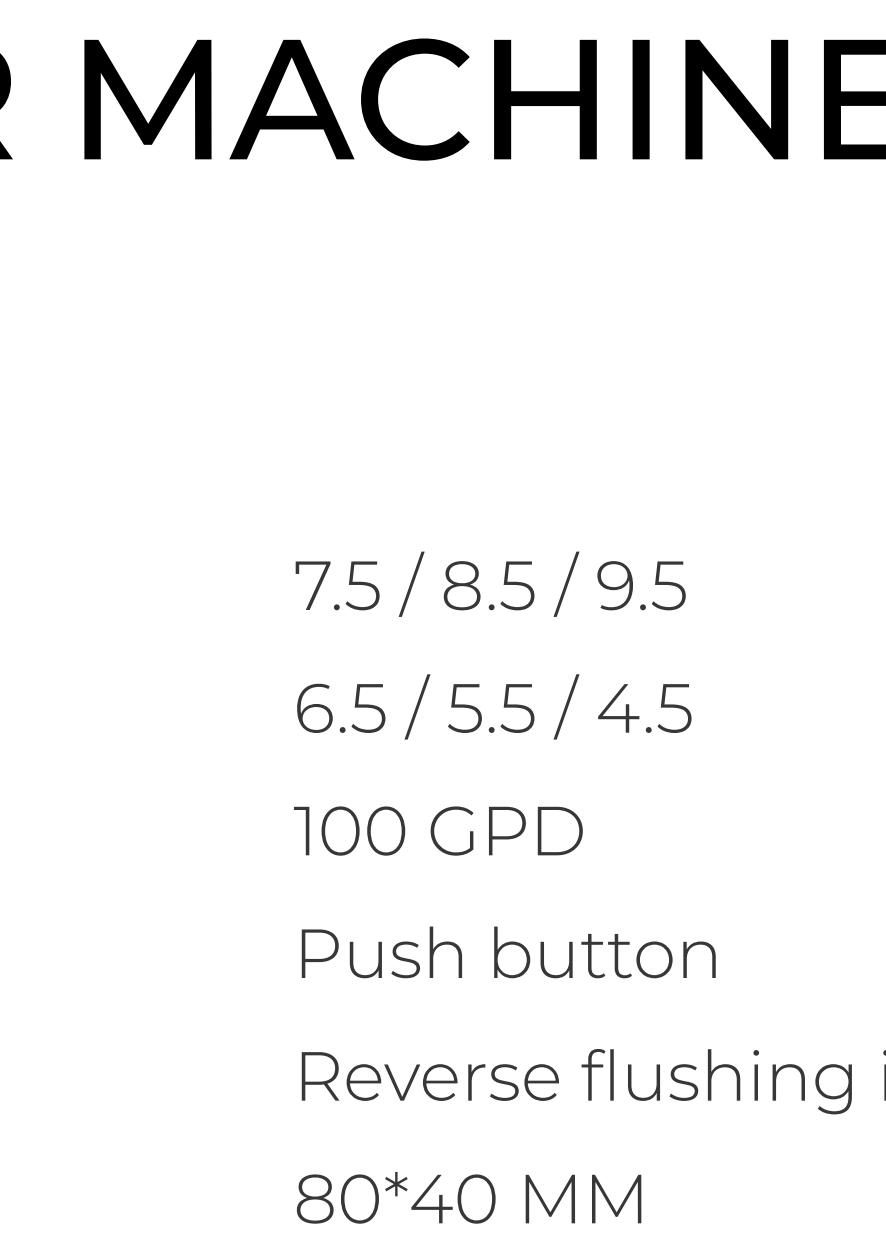

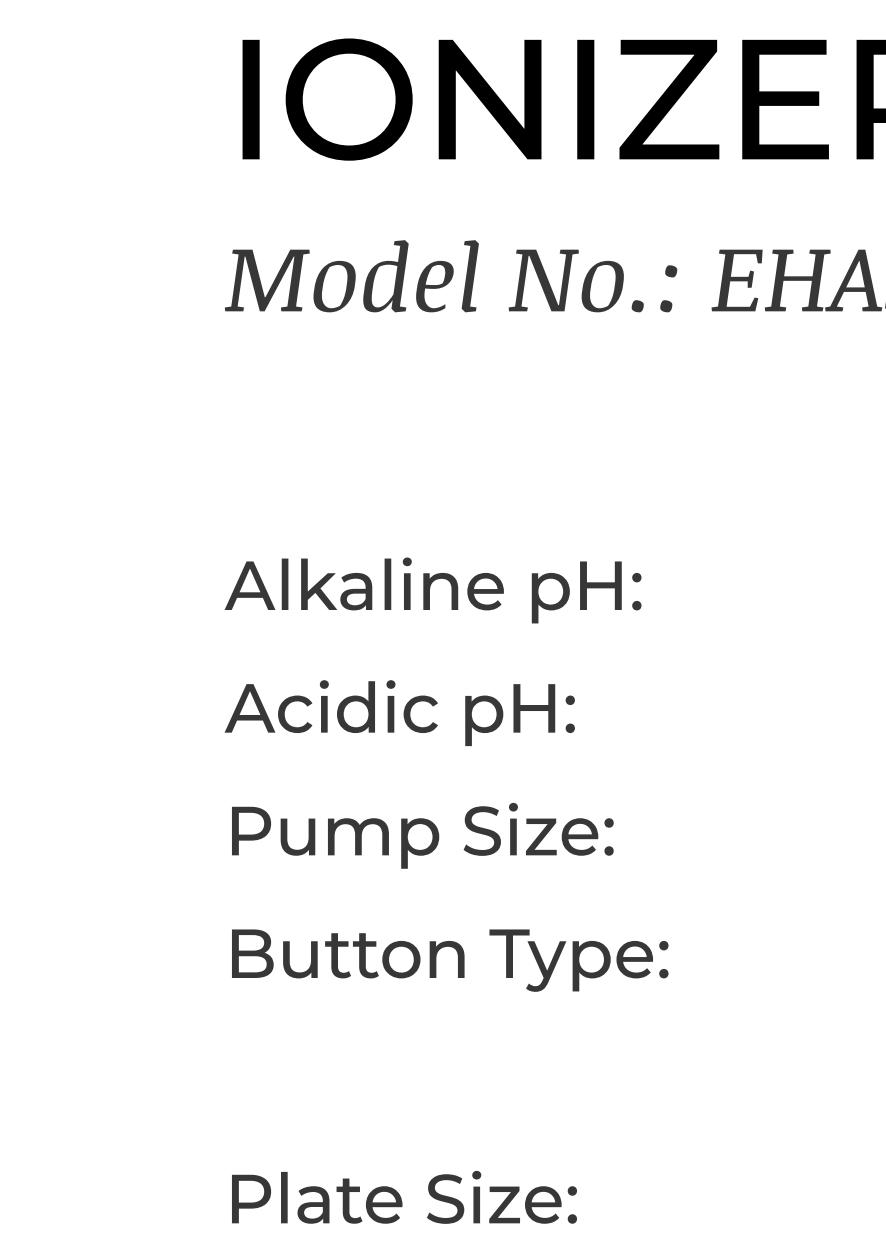

### INTRODUCING THE H<sub>2</sub>O ALKALINE WATER IONIZER, MADE IN INDIA

BY ATOZED

#### GENERATES 4 TYPES OF WATER

<b>1</b>	<b>HYDROGEN ALKALINE IONIZED WATER</b>	<b>2</b>	<b>PURIFIED WATER</b>
<b>3</b>	<b>ACIDIC WATER</b>	<b>4</b>	<b>SANITIZED WATER</b>

An epitome of purity and health- The Electrolytic Hydrogen Water Generator, Alkaline Water Ionizer made in India. The most advanced drinking water solution offers tremendous health benefits.

## ADVANCED SPECIFICATIONS

**PH Level**  
7.5/8.5/9.5/10.5 – 6.5/5.5/4.5/3.5

**Plate Warranty**  
3 Years

**Electrolyzing**  
0-450W

**Display**  
Brand Name / PH Level / ORP

**ORP Level**  
-150 To -600

**Platinum Coating**  
0.5 Micron

**Water Pressure**  
150 PSI

**Plate Technology**  
Platinum Coated Titanium Plates

**Power Uses**  
Less than 100 W

EHA5

EHA7

EHA9

## 5 PLATES WATER IONIZER MACHINE

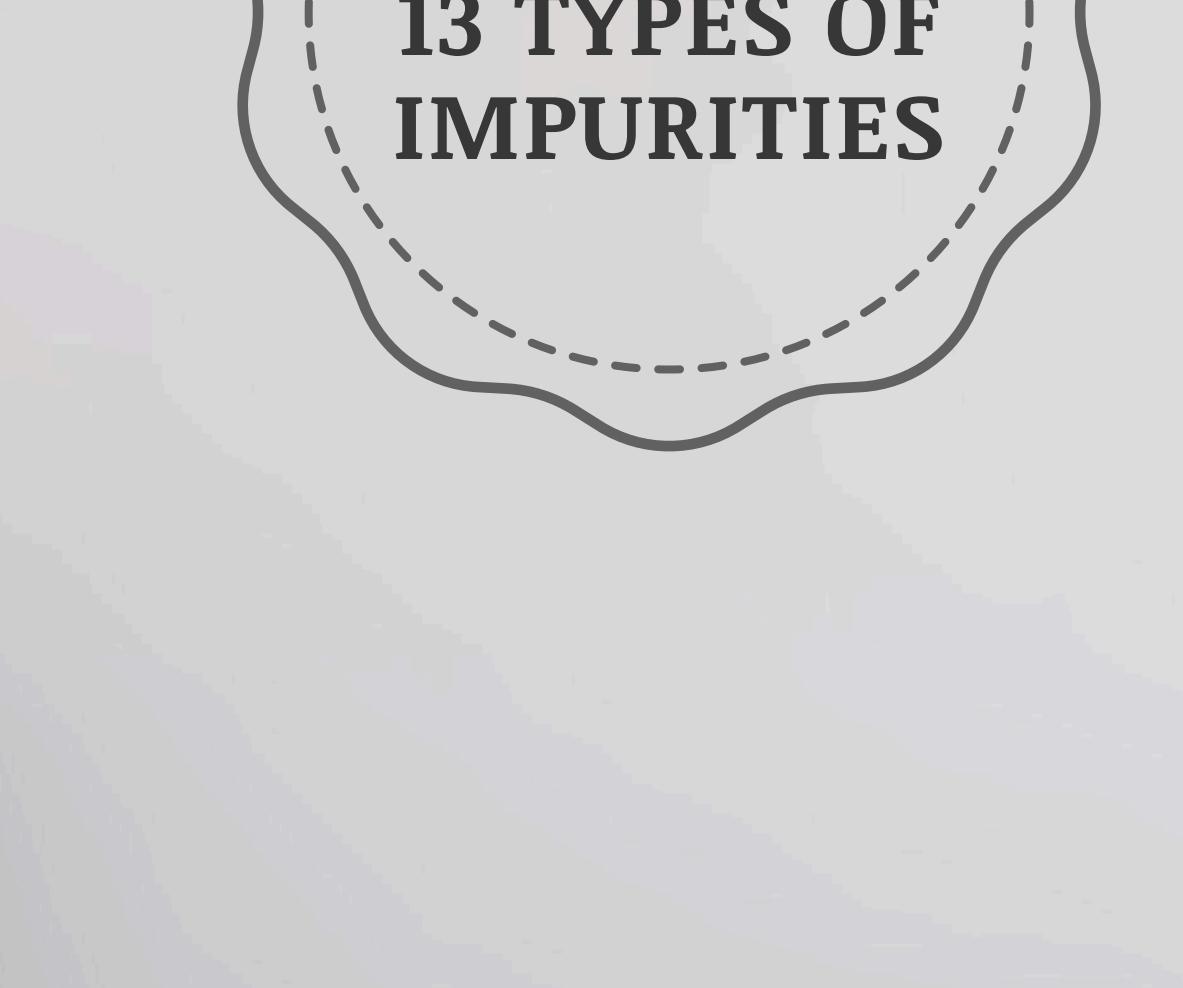

Model No.: EHA5

Alkaline pH:	7.5 / 8.5 / 9.5
Acidic pH:	6.5 / 5.5 / 4.5
Pump Size:	100 GPD
Button Type:	Push button
Plate Size:	Reverse flushing inbuilt
ORP Level:	80*40 MM
Display:	Up to -400
Plate Warranty:	Brand name, pH level, ORP
Other Warranty:	3 Year
Price:	Electronic parts 1 year
Hydrogen (H <sub>2</sub> ) ppb:	Rs. 1,00,000/- (incl. all taxes)
	750

## 7 PLATES WATER IONIZER MACHINE

Model No.: EHA7

Alkaline pH:	7.5 / 8.5 / 9.5 / 10.5
Acidic pH:	6.5 / 5.5 / 4.5 / 3.5
Pump Size:	150 GPD
Button Type:	Feather touch
Plate Size:	Reverse flushing inbuilt
ORP Level:	100*50 MM
Display:	Up to -650
Plate Warranty:	Brand name, pH level, ORP
Other Warranty:	5 Year
Price:	Electronic parts 1 year
Hydrogen (H <sub>2</sub> ) ppb:	Rs. 1,25,000/- (incl. all taxes)
	2000

## 9 PLATES WATER IONIZER MACHINE

Model No.: EHA9

Alkaline pH:	7.5 / 8.5 / 9.5 / 11.5
Acidic pH:	6.5 / 5.5 / 4.5 / 3.5
Pump Size:	150 GPD
Button Type:	Feather touch
Plate Size:	Reverse flushing inbuilt
ORP Level:	80*40 MM
Display:	Up to -650
Plate Warranty:	Brand name, pH level, ORP
Other Warranty:	3 Year
Price:	Electronic parts 1 year
Hydrogen (H <sub>2</sub> ) ppb:	Rs. 1,50,000/- (incl. all taxes)
	3500

## THE H<sub>2</sub>O ALKALINE WATER IONIZER

13 TYPES OF  
IMPURITIES

3  
YEARS OF  
WARRANTY

25  
YEARS OF  
AVERAGE  
LIFE

## ALKALINE SETTINGS

1. CLEANING 10.0 - 11.5 pH	This setting enhances the taste of food and washes fruits and vegetables more effectively than tap water, removing dirt, bacteria, and chemical residues.
2. BREW TEA/ COFFEE 9.5 - 10.0 pH	Alkaline water at this setting enhances the flavor, color, and aroma of both coffee and tea.
3. DRINKING 7.5 - 8.5 pH	Drinking 2+ glasses of alkaline water daily boosts hydration, provides antioxidants, and balances the effects of acidic foods.
4. HIGH ANTI- OXIDANT 8.5 - 9.5 pH	This setting ionizes your water through electrolysis, boosting it with antioxidants and a powerful ORP of -450 to -900 to help your cells absorb better and fight free radicals.

## PURIFIED

1. PURIFIED WATER Approx. 7.0 pH	This setting only filters water (no ionization) and is recommended when taking medication, as ionized water may affect drug absorption if consumed within an hour.
-------------------------------------	--

## STRONG ACIDIC SETTINGS

1. BEAUTY 4.0 - 6.5 pH	Acidic water works as a natural skin toner—exfoliating dead cells, tightening skin, reducing fine lines, and fighting acne-causing bacteria without harsh chemicals
2. CLEANING 2.5 - 6.0 pH	Highly acidic water is a powerful natural disinfectant, ideal for cleaning kitchens, bathrooms, and surfaces like counters, sinks, toilets, showers, and floors.

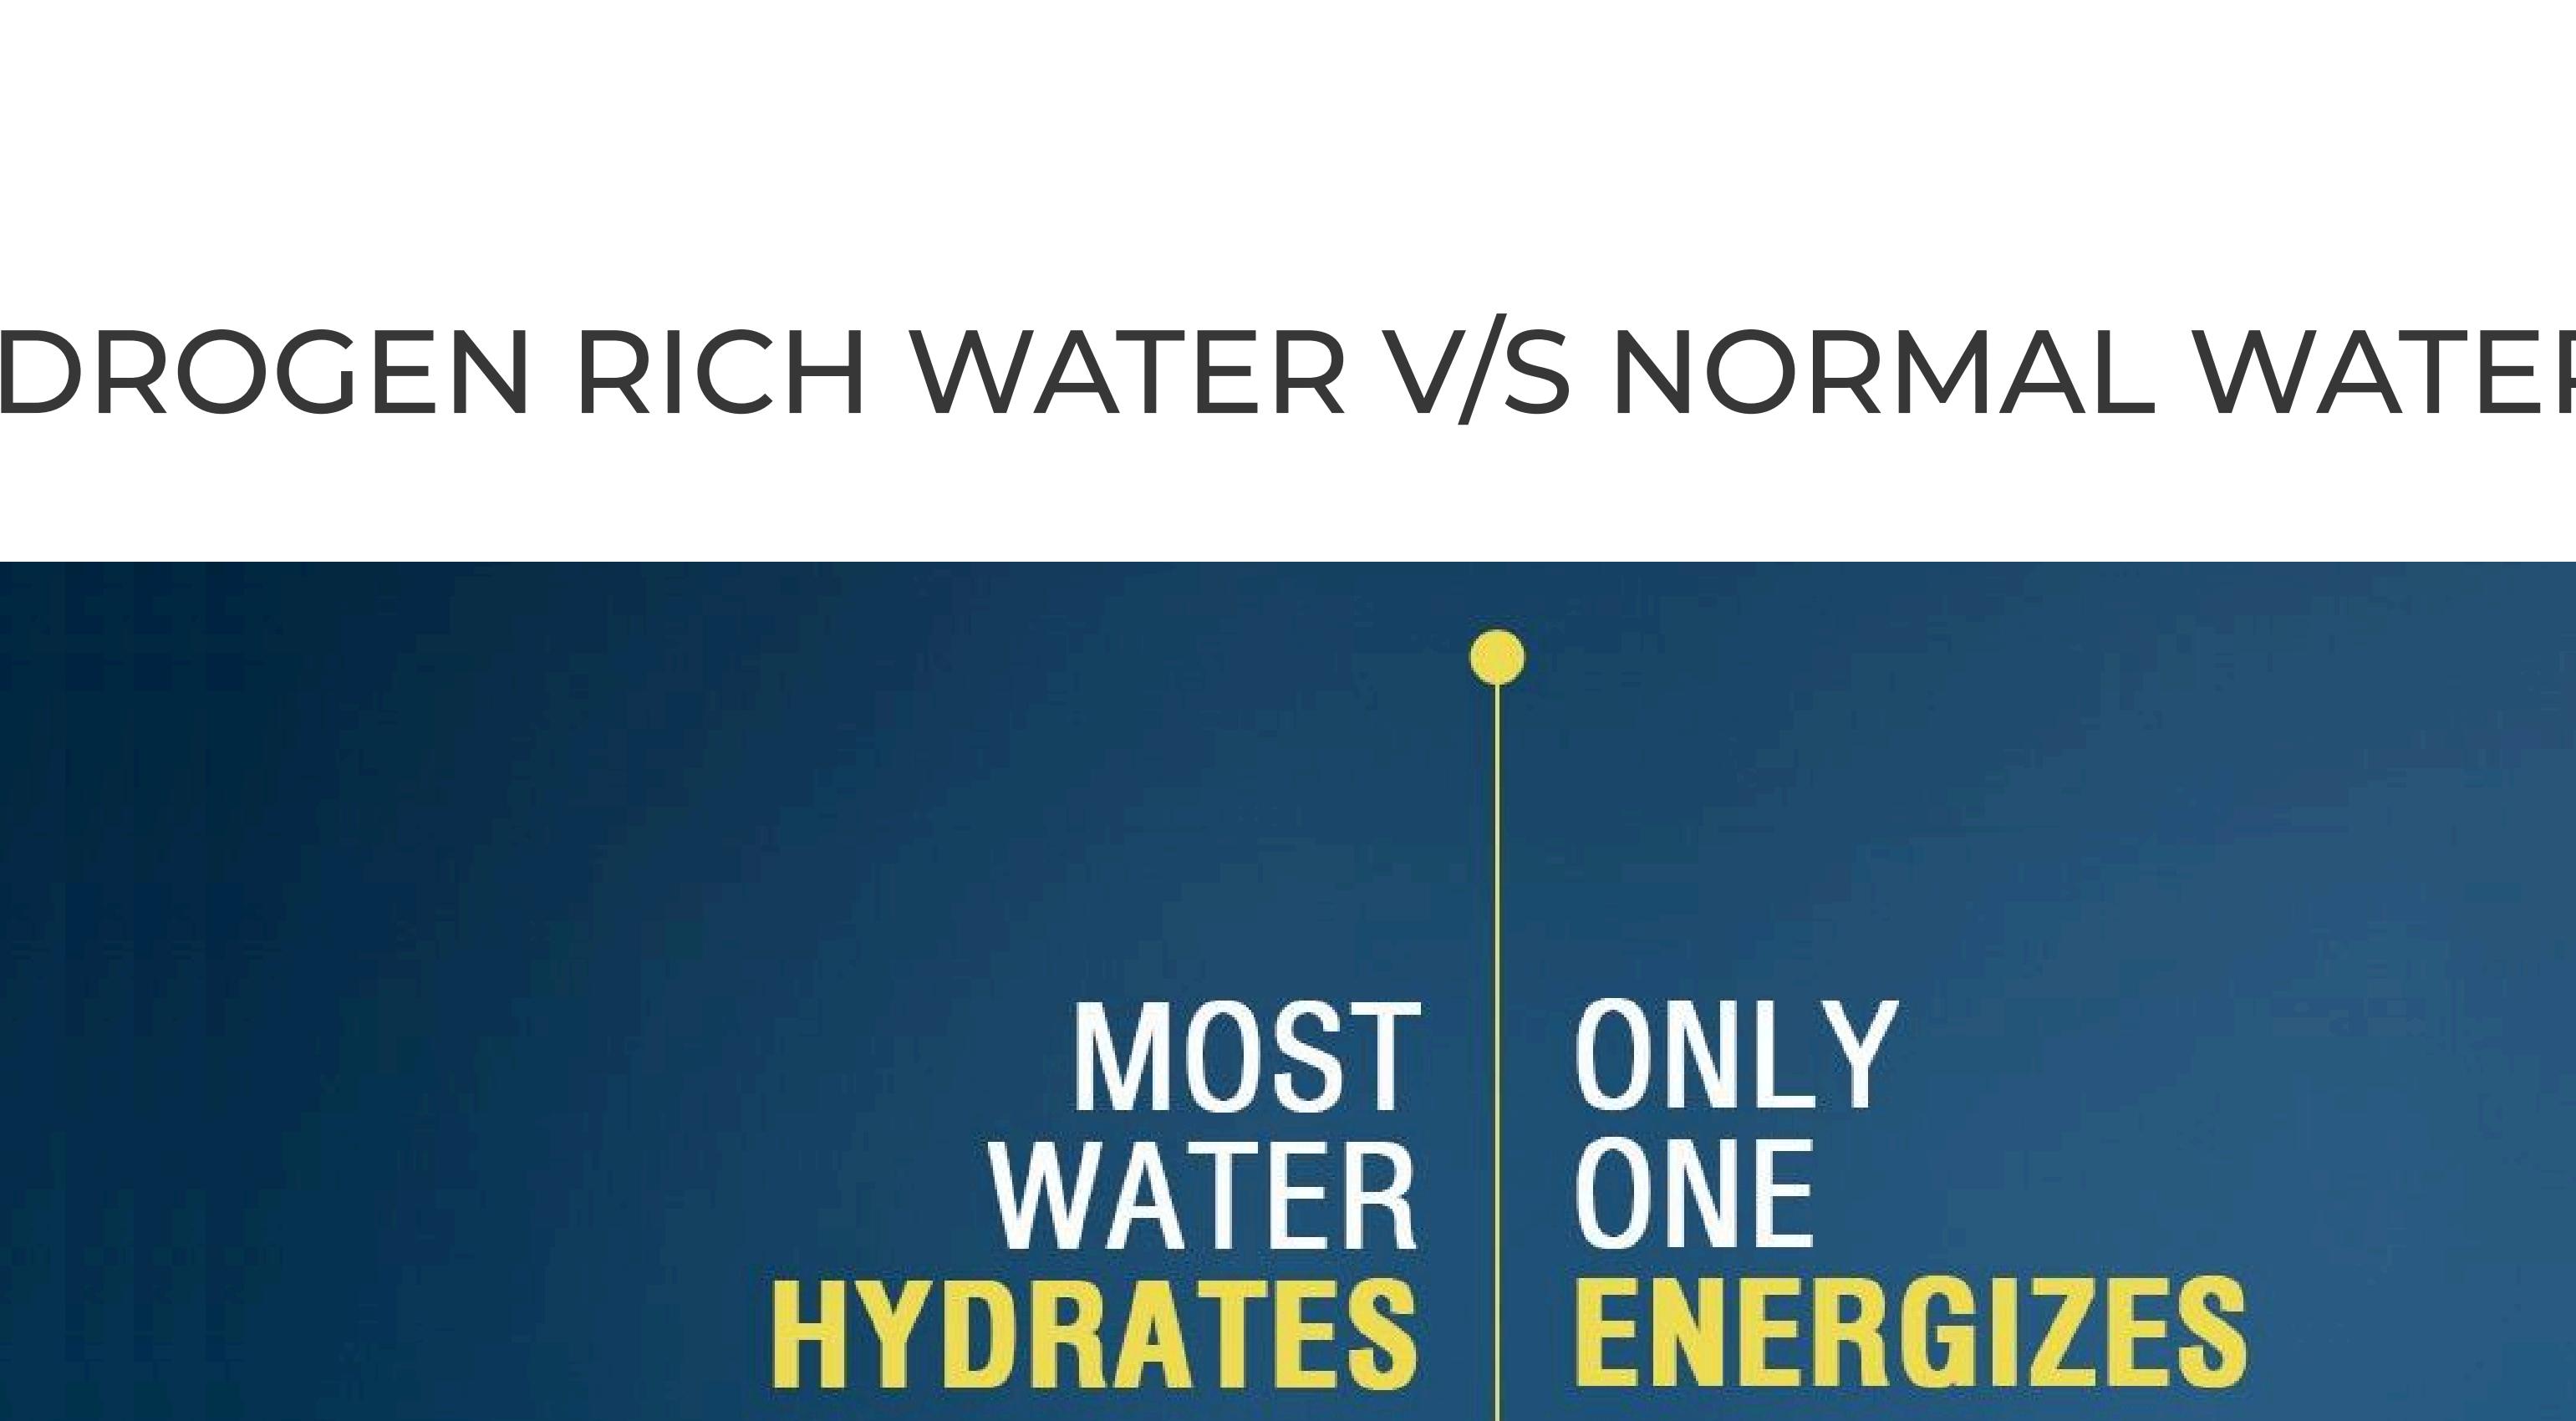

## WHAT IS IONIZED WATER?

By electrolyzing the clean tap water, which is filtered and sterilized to reach drinking water standard, we can get ionized water.

There are two kinds of ionized water:

1. Alkaline Water
2. Acidic Water

Alkaline ionized water has many health benefits and Acidic ionized water has good performance in sterilization.

## WHAT IS HYDROGEN WATER?

Hydrogen water is regular drinking water, but with an extra boost. It has dissolved hydrogen gas, which works like a natural antioxidant inside your body.

These antioxidants help reduce harmful free radicals, improve energy, support recovery, and promote overall wellness. It's like giving your body a gentle defense shield against daily stress and aging.

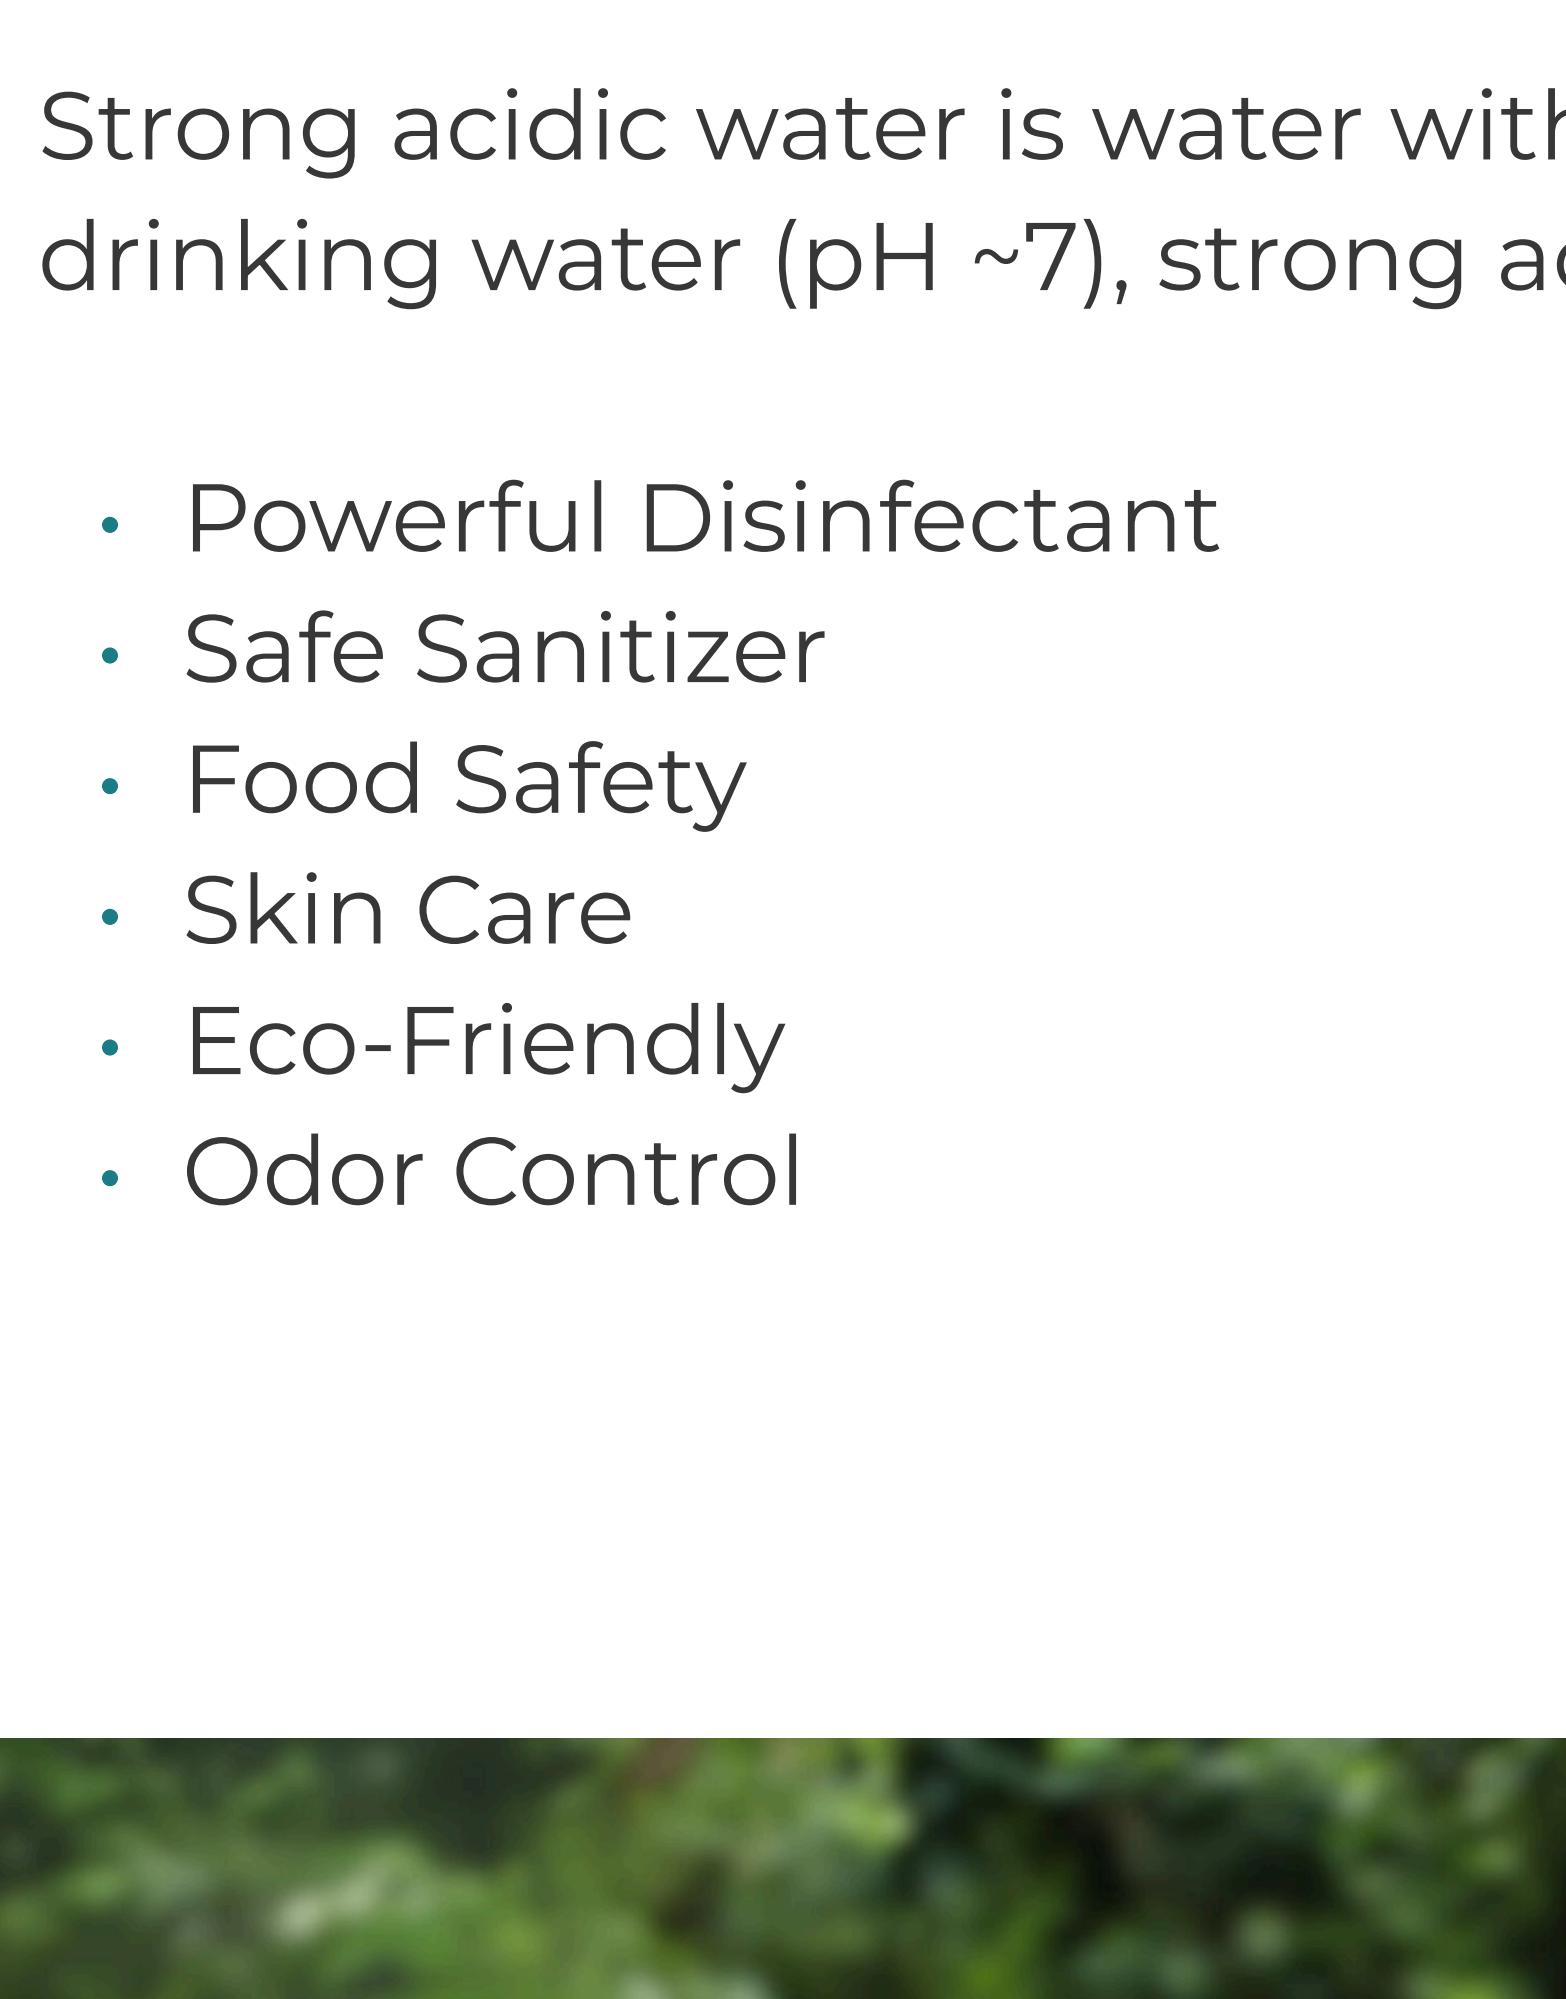

**The result?** Deep cellular protection, faster recovery, and true rejuvenation — from the inside out.

## WHAT IS STRONG ALKALINE WATER?

Strong alkaline water is water that has a higher pH level than regular drinking water.

- Normal water has a neutral pH of around 7
- Strong alkaline water usually has a pH of 9 or above

This higher alkalinity means the water can help neutralize excess acid in the body, which is often linked to fatigue, indigestion, and inflammation.

- To clean cutting boards, knives, and dishes.
- To remove harsh stains on the floor.
- To wash clothes.
- To sterilize vegetables & fruits.
- Wash vegetables & fruits with strong alkaline water for long storage period.

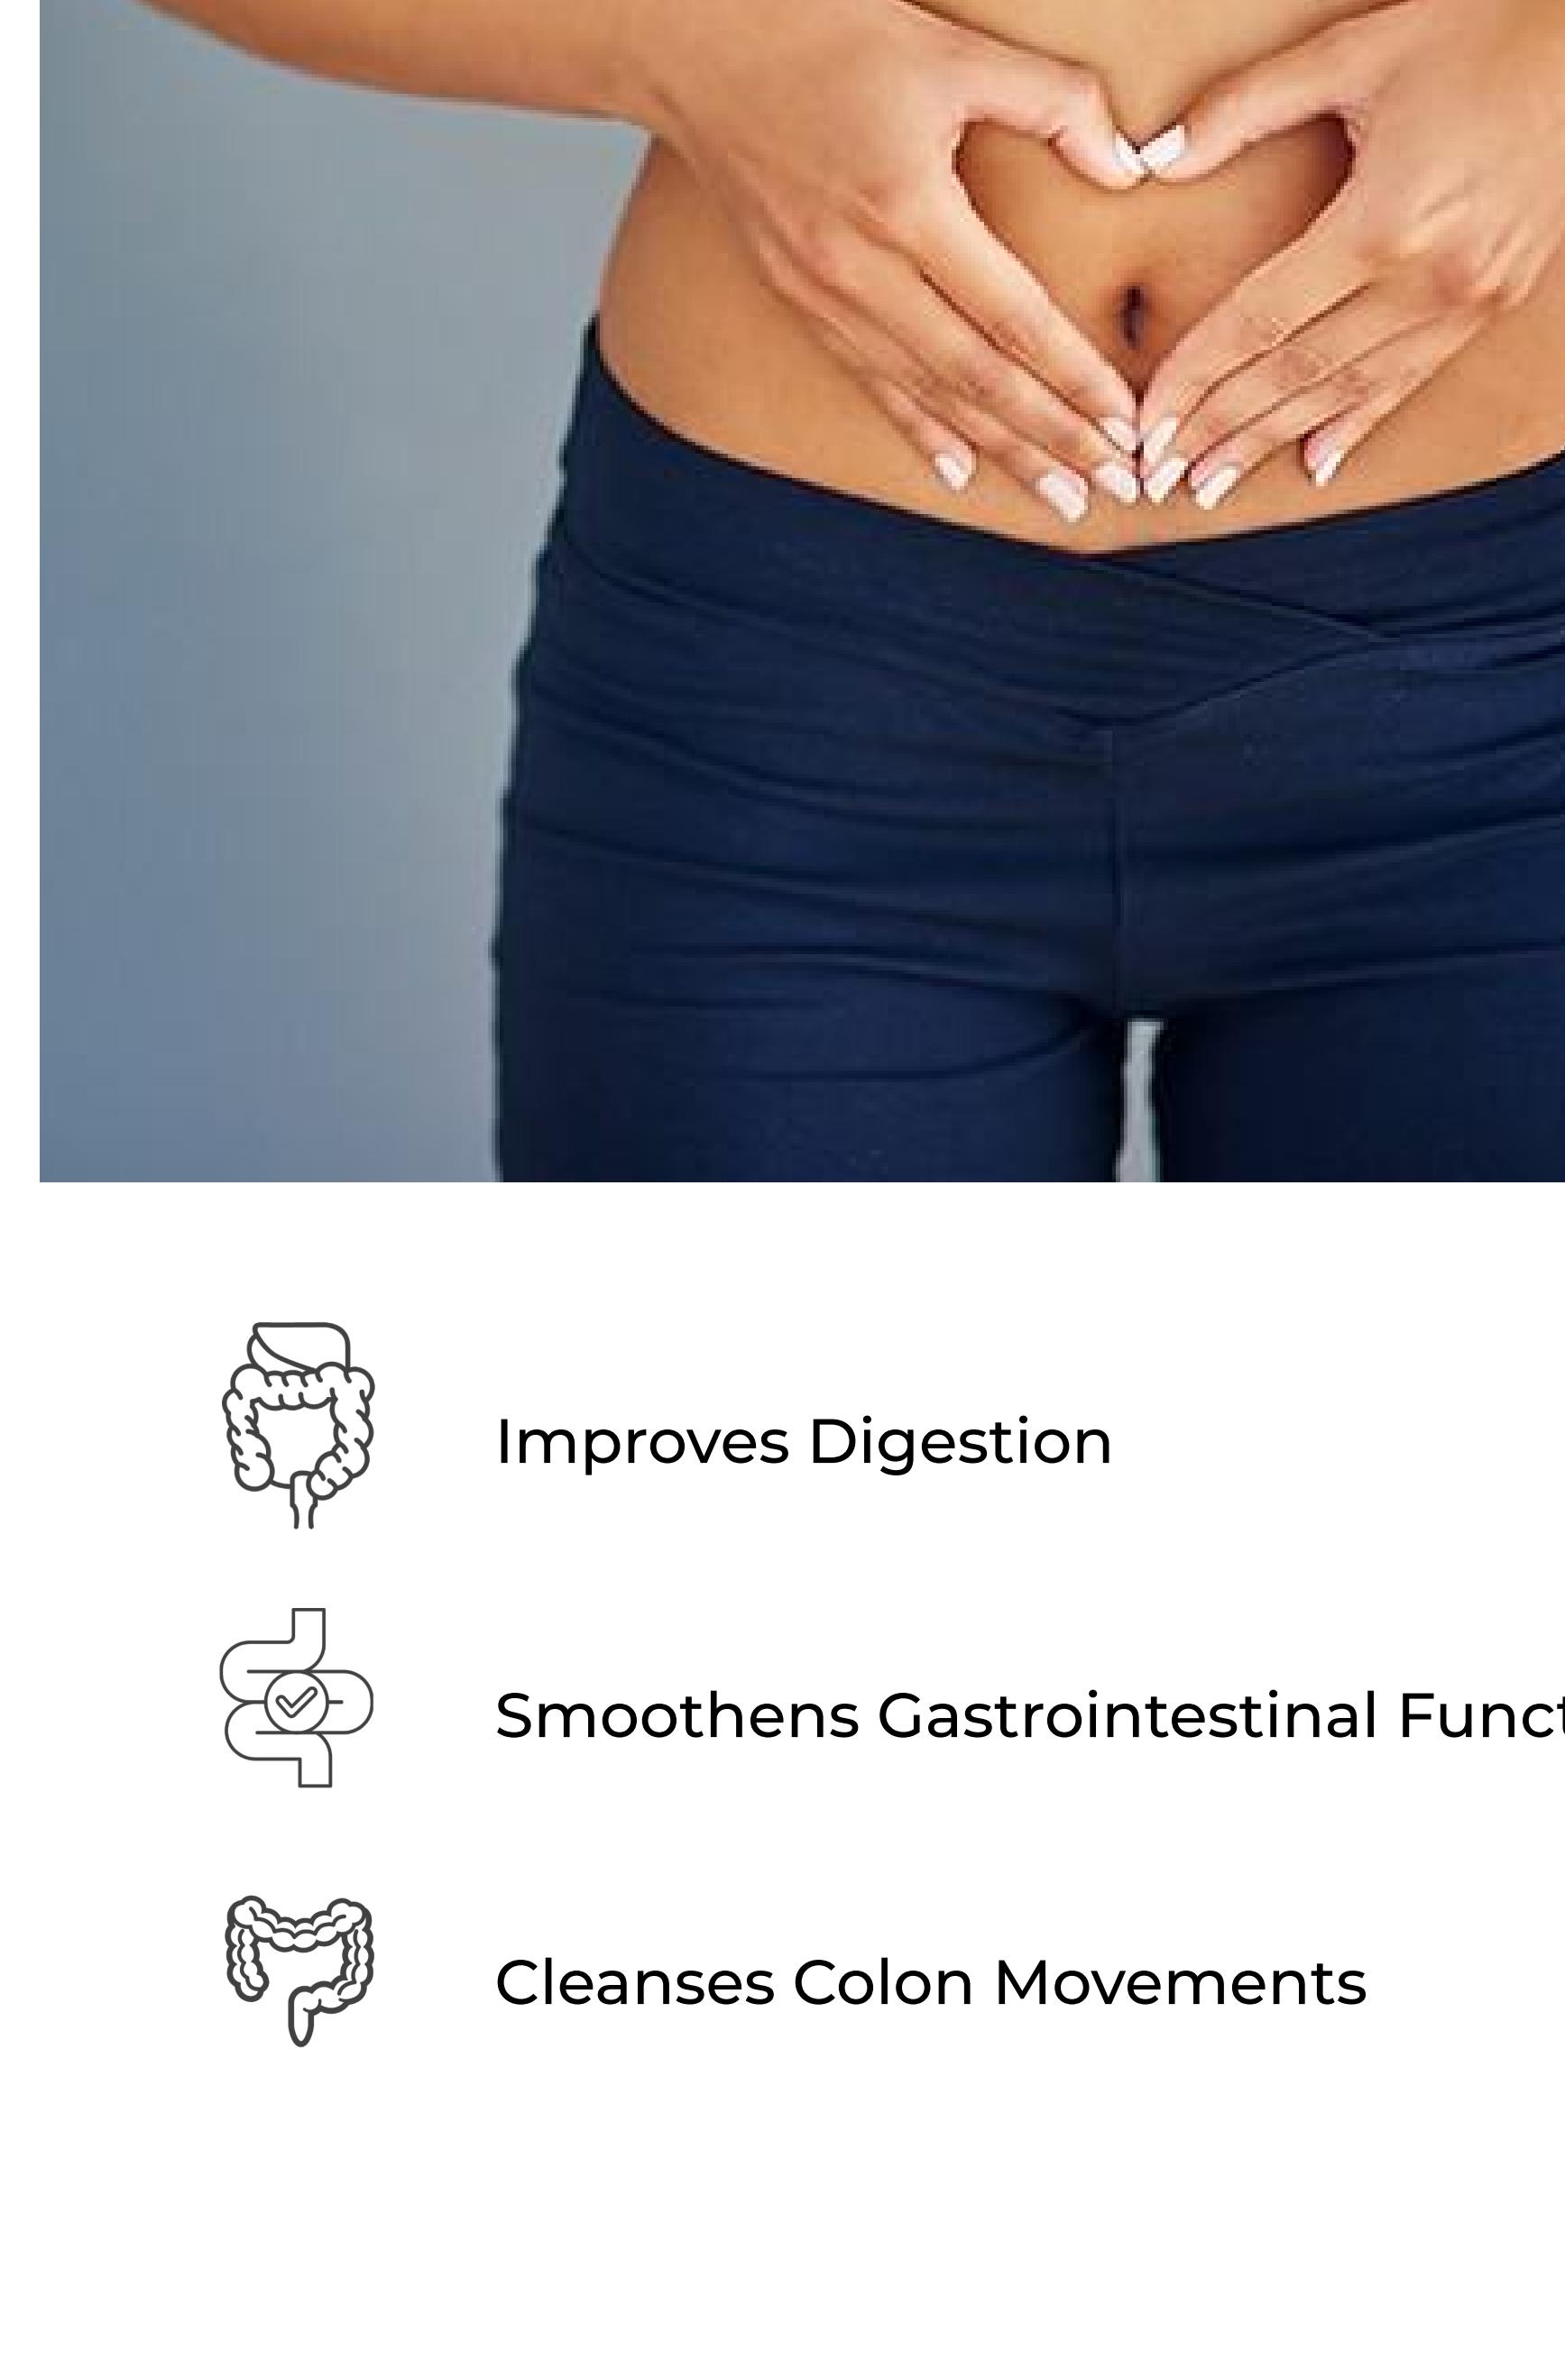

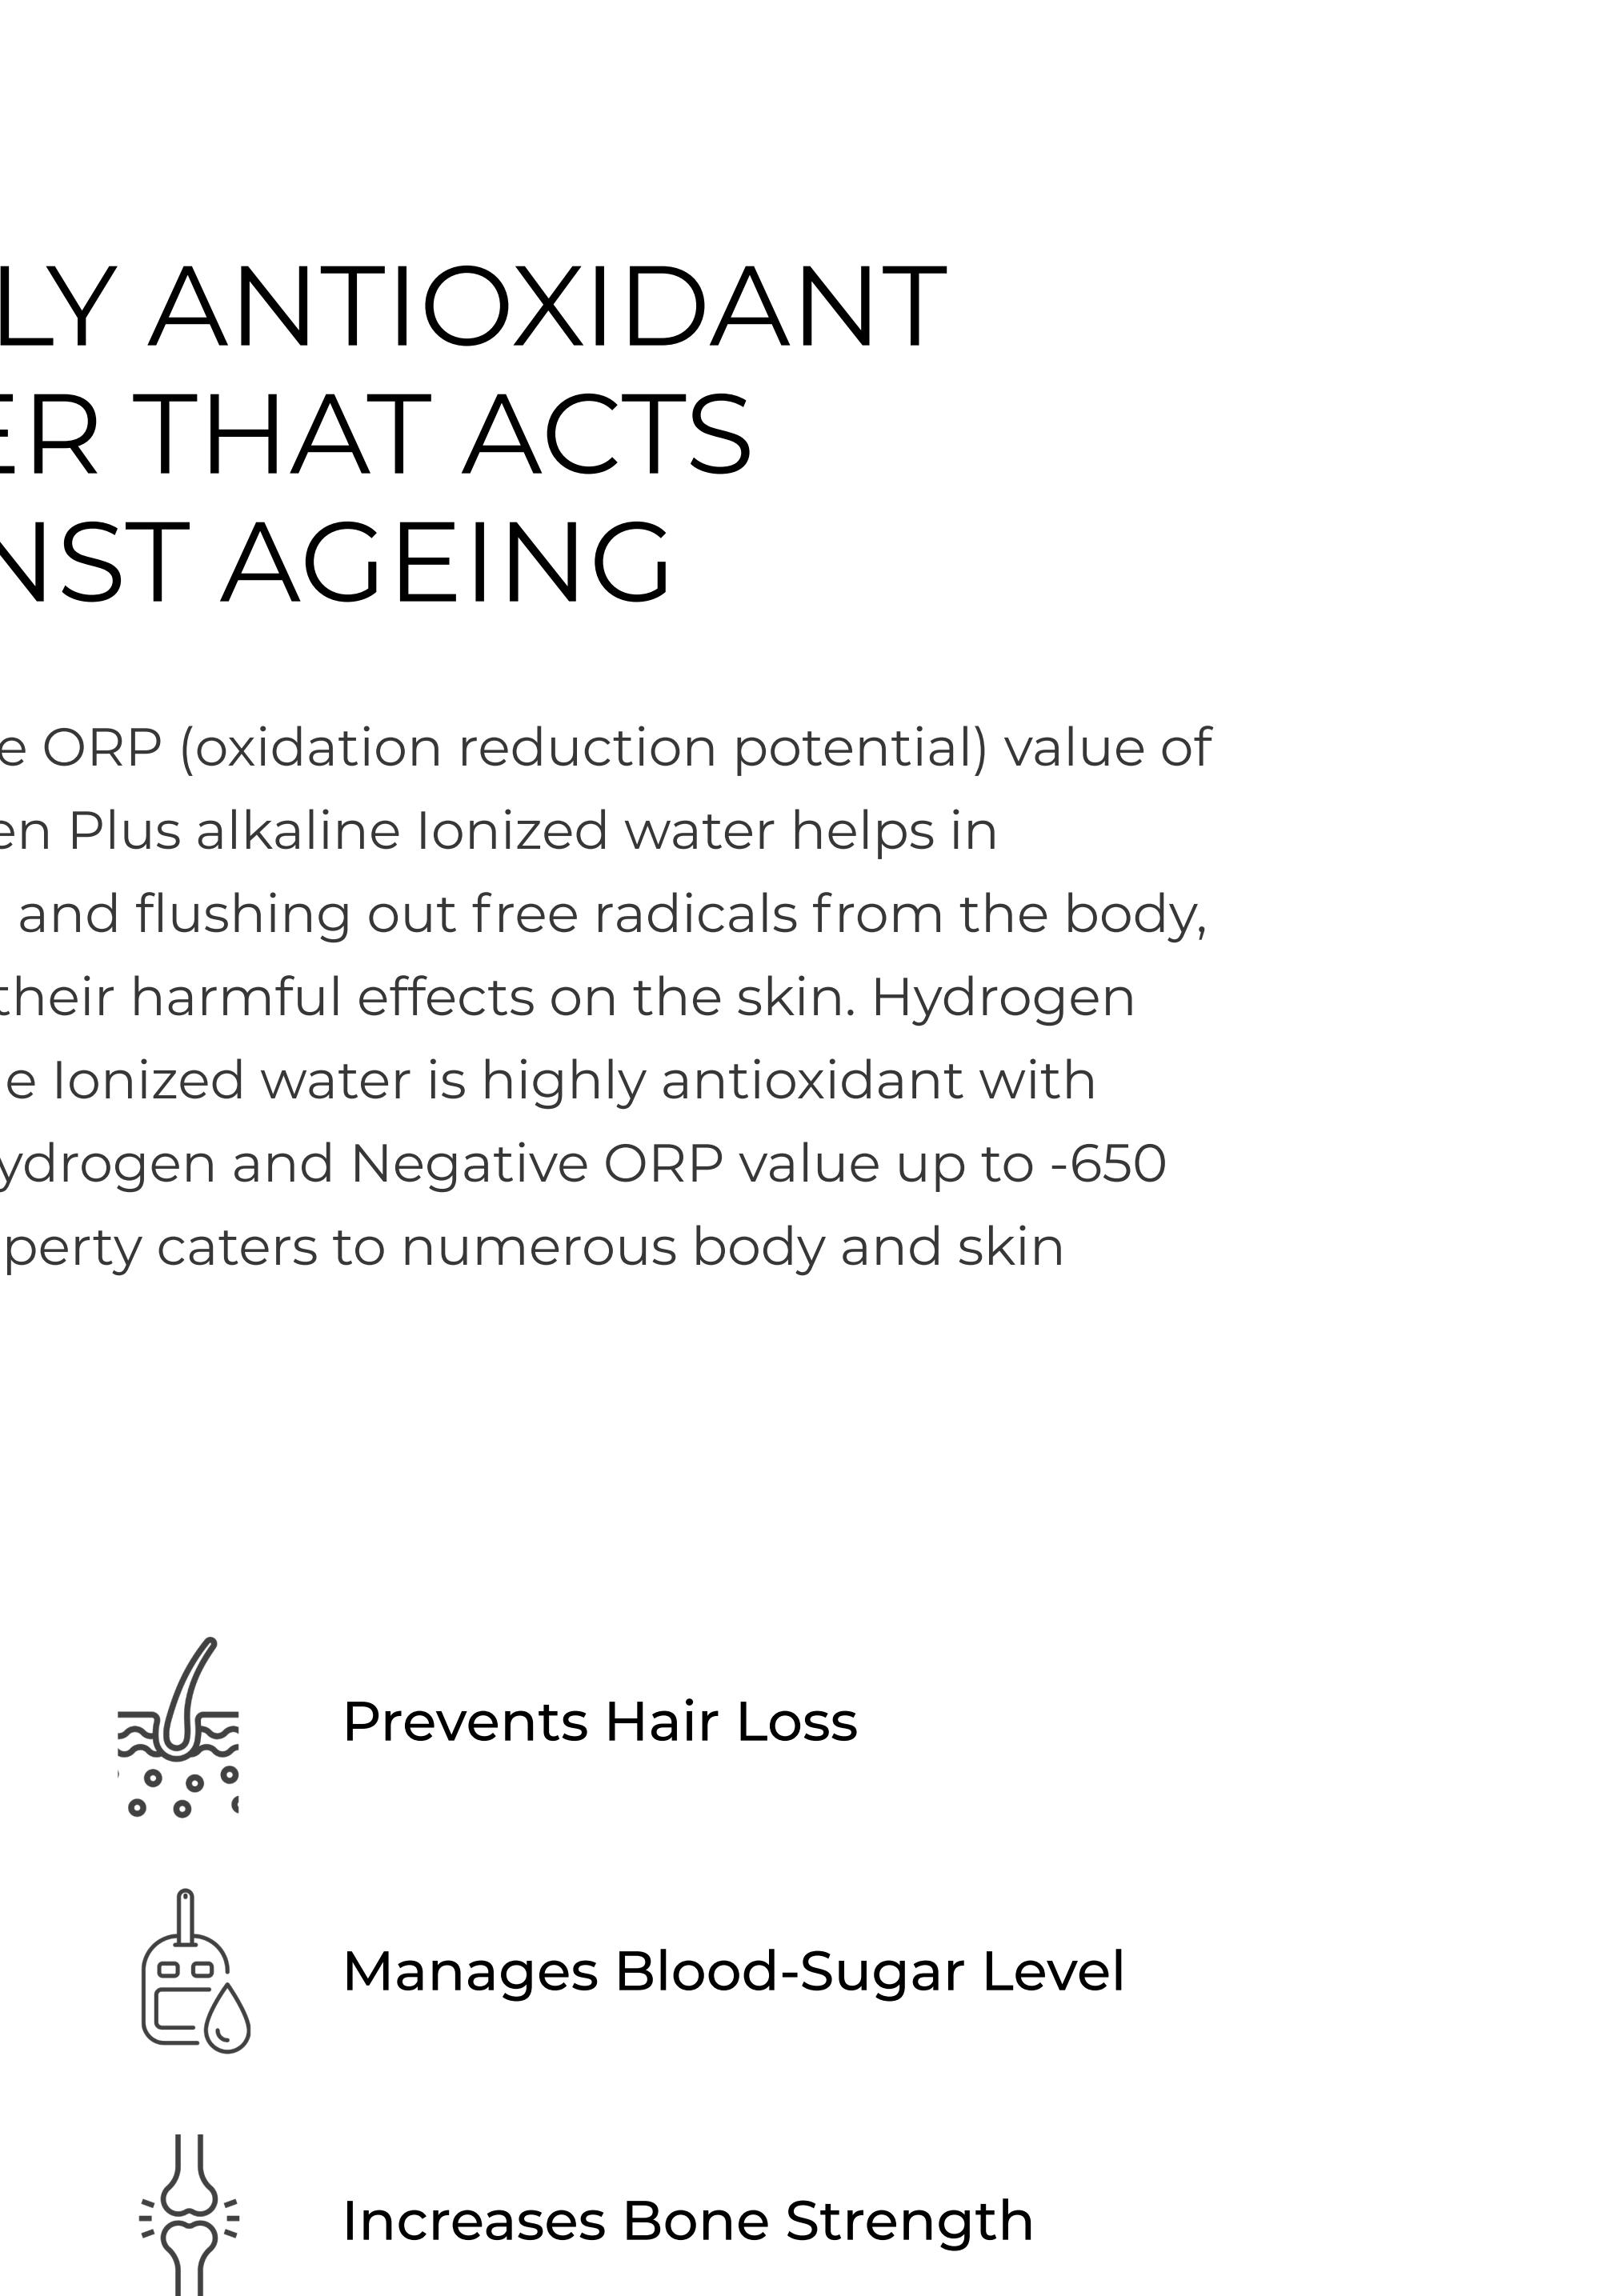

## WHAT IS STRONG ACIDIC WATER?

Strong acidic water is water with a low pH level (around 2.5–3.5). Unlike normal drinking water (pH ~7), strong acidic water is not meant for drinking.

- Powerful Disinfectant
- Safe Sanitizer
- Food Safety
- Skin Care
- Eco-Friendly
- Odor Control

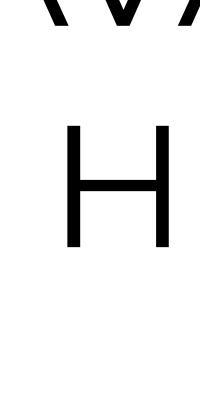

## STAY HEALTHY EVEN AFTER 40

Invest today for a healthier tomorrow

### ALKALINE IONIZED WATER HEALTH BENEFITS- ENHANCED HYDRATION THROUGH MICRO-CLUSTERED WATER

The ionization process conducted by the Alkaline Water Ionizer breaks the electrical bonding of water molecules; reducing the size of the molecules to 5-6 molecules per cluster. The micro-clustered water is absorbed easily into the cells, providing enhanced and faster hydration than conventional water.

Improved Brain Functioning and Mental Clarity

Faster Healing Abilities

Super Hydrating

Highly Detoxifying

### INCREASED PH VALUE OF WATER THAT BALANCES THE ACIDIC ELEMENTS IN YOUR BODY

The Alkaline Water Ionizer removes harmful elements and impurities from water and then electrolyzes the purified water to separate its acidic and alkaline components. Which means; increased pH value or higher alkaline components in the water! This helps in balancing/neutralizing the acidic elements in your body as well as flushing out the acidic waste. Thus improving and smoothening overall gastrointestinal functions.

Improves Digestion

Prevents Hair Loss

Reduced Body Weight

Manages Blood-Sugar Level

Enhanced Skin Glow

Increases Bone Strength

Best Immunity and Energy

HOW MUCH DO YOU REALLY KNOW ABOUT THE WATER YOU CONSUME?
